 Studio 29 B and Education Room
 64-84 Chisenhale Rd
 London E3 5QZ

Salon for a Speculative Future champions and creatively highlights female contributions to society and culture. Thirty artists have designed individual art works, pamphlets, banners and posters, honouring their choice of key female figure, both known and unknown, who inspire their work and thinking. The collection of artworks, the **Salon Materials Collection for the Future**, will be available later in form of an online publication and will be added to, hence grow and expand, over time through further reiterations of the Salon project.

During the private view the exhibition is accompanied by live performances, sound work and screenings of moving image work.
